PROFESSIONAL SUMMARY

Results-driven IT Specialist with hands-on experience in Linux system administration, cybersecurity operations, and network infrastructure management. Proficient in RHEL-based systems, vulnerability assessment, and technical troubleshooting. Demonstrated ability to manage enterprise IT environments, implement security policies, and deliver reliable technical support. Strong foundation in front-end development with proven adaptability to new technologies. Combines technical expertise with leadership experience and a strategic background in digital marketing and brand management. Seeking international opportunities in IT Infrastructure, Cybersecurity, Linux Administration, and Networking.

TECHNICAL SKILLS

Operating Systems: Linux (RHEL, Rocky Linux), Windows, Windows Server

Linux Administration: User Management, SSH, SELinux, FirewallD, LVM, Apache, Nginx, Cron, SystemD

Cybersecurity: Vulnerability Assessment, Penetration Testing Fundamentals, OWASP Top 10, Nmap, Burp Suite, Metasploit, Wireshark, Kali Linux, Security Reporting, Red Team Fundamentals, TryHackMe, OWASP Juice Shop

Networking: CCNA Routing & Switching, TCP/IP, VLANs, Routing Protocols, Subnetting, Network Troubleshooting, Cisco Packet Tracer

Programming & Development: Python, C, Java, HTML, CSS, JavaScript

Tools & Platforms: VMware, Git, VS Code, Figma, Cisco Packet Tracer

Design & Marketing: Adobe Photoshop, Adobe Illustrator, Canva, Social Media Marketing, Meta Ads, Digital Advertising, Branding

PROFESSIONAL EXPERIENCE

IT Manager

Jan 2026 – Present

Council Developments

New Damietta, Egypt

- Manage end-to-end IT infrastructure including servers, workstations, and network devices to ensure operational continuity.
- Administer user accounts, permissions, and device policies across Linux and Windows environments.
- Oversee network administration tasks including VLAN configuration, routing, and resource allocation.
- Provide tier-2/3 technical support, diagnose hardware and software issues, and implement effective troubleshooting workflows.
- Develop and enforce security policies, access controls, and backup procedures to support business continuity.
- Collaborate with cross-functional teams to optimize IT processes and improve system reliability.

IT Specialist

Nov 2026 – Present

ERIC Ports & Logistics

New Damietta, Egypt

- Maintain and support IT systems, workstations, printers, and network infrastructure in a logistics environment.
- Deliver frontline technical support to end-users, resolving hardware, software, and connectivity issues promptly.
- Manage network resources, monitor system performance, and ensure availability of critical business applications.
- Document technical procedures, incident reports, and system changes to maintain operational transparency.
- Identify opportunities for process improvement and contribute to infrastructure optimization initiatives.

Chief Executive Officer (CEO)

Jan 2025 – Present

Technology Society Team (TST) – Damietta University

New Damietta, Egypt

- Lead strategic operations, team development, and large-scale technical events for a university-based technology organization.
- Drive organizational growth through mentorship, talent acquisition, and structured program development.
- Oversee branding, marketing strategy, and digital presence to enhance community engagement and outreach.
- Foster partnerships with industry professionals and academic institutions to expand learning opportunities for members.

EDUCATION

Damietta University <i>B.Sc. in Information Technology – Faculty of Computer and Artificial Intelligence</i>	Egypt 2024 – 2028
--	----------------------

CERTIFICATIONS

Google Cybersecurity Professional Certificate – Google & Coursera
Infrastructure & Security – Vulnerability Analyst & Penetration Tester – Digital Egypt Pioneers Initiative (DEPI)
Red Hat System Administration I (RH124) – Red Hat
Red Hat System Administration II (RH134) – Red Hat
CCNA Routing & Switching – Cisco
Play It Safe: Manage Security Risks – Google

Full certificate collection: Google Drive Certificate Folder

TRAINING & PROFESSIONAL PROGRAMS

Digital Egypt Pioneers Initiative (DEPI) – Infrastructure & Security Track
Red Hat Summer Training – System Administration (RH124 / RH134)
NTI Linux Administration Training – National Telecommunication Institute
NTI CCNA Routing & Switching – National Telecommunication Institute
Google Cybersecurity Professional Program – Coursera

PROJECTS

Linux Automation Scripts Toolkit <i>Bash, Python, Cron, Systemd</i> – Developed automation scripts for user management, log analysis, and system service monitoring. – Implemented scheduled tasks using Cron and systemd timers to streamline administrative workflows. – Built diagnostic tools for performance monitoring and resource utilization tracking.	2024 – Present
Cybersecurity Labs Portfolio <i>Nmap, Burp Suite, OWASP ZAP, Metasploit, Wireshark</i> – Completed hands-on labs in network enumeration, vulnerability scanning, and controlled exploitation. – Practiced on platforms including TryHackMe, Hack The Box, and PortSwigger Web Security Academy. – Documented findings, remediation steps, and built a structured continuous learning roadmap.	2024 – Present
Servixo Platform – Website Development & System Analysis <i>HTML, CSS, UX Design</i> – Developed a responsive website for Servixo, focusing on usability and user experience. – Participated in system analysis, requirements gathering, and UX design processes. – Successfully delivered the project despite web development not being a primary specialization, demonstrating strong adaptability and rapid skill acquisition.	2024
Front-End Mini Projects Collection <i>HTML, CSS, JavaScript</i> – Built responsive landing pages and reusable UI components following mobile-first design principles. – Applied modern UI/UX standards and accessibility best practices across multiple projects.	2023 – Present

KEY ACHIEVEMENTS

Successfully completed the DEPI Infrastructure & Security Track, specializing in vulnerability analysis and penetration testing.
Earned the Google Cybersecurity Professional Certificate and Red Hat RH124 / RH134 certifications.
Completed CCNA Routing & Switching training with practical network configuration experience.
Managed marketing campaigns and branding projects for over 100 clients, delivering measurable results.
Elected and serving as CEO of the Technology Society Team (TST), leading a growing technical community.

SOFT SKILLS

Leadership & Team Management
Communication & Presentation Skills
Teamwork & Collaboration
Critical Thinking & Problem Solving
Decision Making & Strategic Planning
Time Management & Organization
Adaptability & Fast Learning

ADDITIONAL INFORMATION

5+ years of professional experience in graphic design, social media management, and digital marketing.
Managed paid advertising campaigns and branding strategies for 100+ clients across diverse industries.
Passionate about cybersecurity, Linux administration, networking, and open-source technologies.
Active participant in cybersecurity communities and continuous self-directed learning platforms.
